How Do You Get Rid of Parasites, Worms and Viruses?

It's not easy and if anyone tries to tell you there's a quick fix, don't believe them.

There are two ways to eliminate these invaders. You can kill them off, or you can raise the vibrations of your organs and systems so parasites, worms and viruses are either killed off or wash out. Parasites, worms and viruses cannot live within you if your organs and systems are working at a high vibration

One major difficulty exists with the killing them off method. Parasites, worms and viruses repopulate within you by dropping reproductive spores which become new parasites, worms or viruses six weeks later. Antibiotics can eliminate parasites etc. but they do not eliminate the spores.

A good example is the chicken pox viruses. You can eliminate the chicken pox and years later develop shingles, which is caused by the viruses that caused chicken pox. The spores remained buried and reactivated at a later date.

Parasites, Worms, Viruses - A Leading Undiagnosed Health Problem

I estimate that more than half the human population today has one or more parasite, worm or virus living in them and that neither they or their physician is aware of it. The medical profession has limited knowledge and their testing ability is very limited to diagnose them. There are thousand of different parasites, worms and viruses affecting people today.

Ann Louise Gittleman in her book titled " Guess What Came to Dinner" states that parasitic infections are the most commonly misdiagnosed form of illness today. Hanna Kroeger in her book titled " Parasites the Enemy Within" provides a good description of the various types of worms and parasites and the symptoms for each type.

Signs of Viruses, Parasites and Worms Within a Human Body

Many have described the variety of symptoms you can experience as a result of parasites. The following is not a complete list but identifies a majority of symptoms experienced by many.

chronic fatigue	depression
easily fatigued	irritability
lethargy	irrational anger
physical exhaustion	restlessness
repeated awakening during sleep	always hungry
teeth grinding while sleeping	craving sugar
insomnia	craving starchy carbohydrate foods
aching joints	food sensitivities
swollen joints	food intolerances
diarrhea	allergies
constipation	fevers
weight gain	itching rectum
weight loss	pot belly
bloating	poor memory
stomach gas	inability to concentrate
belching	confused
nausea	spaced out
cysts	fuzzy thinking
water retention	lack of focus
abdominal cramps	anemia
dark circles under the eyes	convulsions in children

It's very important to remember that all of the above symptoms can be the result of other influences in addition to parasites. Dowsing or muscle testing can easily confirm the origins of your symptoms.

Modern Illnesses Caused by Viruses, Parasites, and Worms

Viruses, parasites, and worms are one of the basic causes of many of the modern illnesses affecting so many today. Hanna Kroeger in her book called "Parasites: The Enemy Within" identifies the following illnesses: Asthma; Arthritis; Cancer; Chronic Fatigue; Colitis; Diabetes; Hodgkin's Disease; Leukemia; Lymphoma; Multiple Sclerosis; Ovarian cysts; Pneumonia; Lyme Disease; Wyle's Disease; mineral imbalances; thyroid imbalances; high and low blood sugar; jaundice; and blood clots.

How Do You Get Parasites, Worms and Viruses?

You can pick them up in hundreds of different ways. If your immune system is strong, it can easily eliminate whatever parasites, worms or viruses enter your system. If your immune system is weakened by chemicals, metals, or other types of poisons, they will find a home and multiply within you.

You can get parasites by kissing (even on the cheek); any type of intimate sexual activity; drinking from another person's glass; playing another person's musical instrument; all types of water, and even water that's labeled distilled in third world countries; meats; vegetables; fruit; shaking someone's hand; unclean toilet facilities; all animals; house pets (including birds); undercooked meat and fish; used dish rags or dish towels; foreign travel to countries whose hygienic practices are poor; importing food from countries where parasites are common and hygienic practices are poor; chemicals and solvents in our food; walking barefoot in polluted areas; swimming in polluted lakes, rivers, and swimming pools; and unsanitary toilet facilities.

How to Identify These Invaders - Conventional and Unconventional Methods

Conventional medicine's diagnosing of viruses, parasites and worms is limited and unreliable. The problem is both the technology and the behavior of the parasites. Parasites can move from organ to organ. They can take the rhythm of your body and avoid detection. They can mutate to avoid detection. I have read that the only way to get even a 50% rate of detection of existing parasites is to have a laboratory that specializes in testing for parasites take blood, mucous, and fecal tests every 2-4 hours for 72 straight hours. I understand there are a number of quality laboratories in the United States who are able to provide this type of testing.

I use dowsing and intuitive skills when conducting Vibrational Assessments and can easily read the energetic vibrations of parasites, worms and viruses within individuals. Each human being has an energy signature, similar to a fingerprint. No two energy signatures are the same. Each type of parasite also has an energy signature and therefore can easily be identified. Therefore, it's quite easy to identify parasitic infections through dowsing and muscle testing. As a distance dowser, I can read the energy signature of anyone anywhere in the world and advise if I read the vibrations of parasites.

How Parasites, Worms and Viruses Survive and Reproduce Within You

Viruses and parasites and worms are highly intelligent organisms. They don't have a brain but they are designed to multiply, mutate, and survive. Parasites can live in any part of your body. They penetrate the membranes and go into your brain. That's

why your thinking can become quite fuzzy and unfocused and your memory poor. They can adjust their vibrations to your body's vibrations. They can live off your blood. They eat up all the good vitamins and minerals within you leaving you highly deficient, even when you take vitamin and mineral supplements.

They reproduce by dropping a reproductive cell within your body that is called a spore. These spores just sit and rest. Antibiotics, herbs and certain homeopathic remedies can sometimes eliminate the parasites. However, they normally cannot eliminate the spores. That is why you have great difficulty finding a permanent elimination of parasites. It's really the spores that are creating the problem.

I make a group of vibrational essences called Choming Essences that are quite different from anything else available on the market today. They have been able to eliminate the spores of parasites, worms, viruses, infectious bacteria, as well as candida. It's important to know that candida is a fungus and all fungus has roots. Choming Essences can help eliminate the roots of the candida to ensure the overgrowth does not return. I also make Choming Tinctures from organic tress, herbs, roots etc. These tinctures are made vibrationally by hand.

Their Effects on Emotions and Intellectual Capability

Parasites can have a direct and profound effect on your emotions and intellectual capacity. They can be the direct cause of depression, irritability, emotional swings, confusion, inability to concentrate, restlessness, and poor sleep. They have many indirect causes as well.

As viruses and parasites are eliminated your vital force and energy will slowly and gently increase. It's amazing to see people almost come to life in front of your eyes and begin to find the energy, emotional strength and intellectual capacity to enjoy life again.

It's important to note that not all emotional imbalances, depression etc. are caused by parasites, worms or viruses. There are many other causes for emotional difficulties. Parasites are often one of the causes and should be identified and eliminated to ensure they are not the only cause of your emotional difficulties.

Children and Parasites, Worms and Viruses

Children can be affected with parasites in the same manner as adults. Children can also be infected with parasites through their mother's milk. I believe that a lot of colic and other difficulties being experienced by children is the direct result of parasites and food sensitivities. Children are easily infected by pets. Whenever you see a dog or cat licking a child remember, it may have been licking its anus an hour earlier or sticking its nose into something full of parasites. It's important to ensure pets are parasite free if you decide to keep pets in your home.

Parasites, Worms and Viruses Secrete Toxins

These invaders can live in your body for many years, up to 30 or 40 or 50 years. Our bodies are so amazingly powerful to be able to endure these infestations. Depending on the natural vital force of the individual, you can go for many years and be infected with parasites without experiencing any major effects. But eventually you will lose energy and can experience many of the symptoms mentioned earlier.

They secrete toxins that our bodies have to deal with. These toxins are just a nice word for poisons. Our bodies have to either neutralize these poisons or wash them out. Eventually as the virus or parasitic infection increases, the body has a more difficult time eliminating these toxins and the individual ends up with a lot of poison in their body. Smoking, drinking alcohol, junk food, white sugar, drugs, chemicals in food, leave poisons in our bodies. When you combine these with toxins from the invaders, it's easy to understand how our bodies just begin to wear down from all the poisons within.

The poisons from viruses, parasites and candida block the absorption of nutrients. This means that the body's ability to absorb nutrients from its food intake or vitamins and minerals is substantially reduced. You can be eating the finest organic diet and taking the highest quality supplements and your body is not able to absorb the nutrients in this food.

How a Choming Essence Program Works

Choming Essences and Tinctures heal with vibration. They increase the rate of vibration of your organs and systems. A person who is ill, who has parasitic infection, will have a much lower vibration than the healthy person. Choming Essences will increase the vibration of organs slowly and gently. Parasites cannot live in a higher vibration and are slowly eliminated as an individual's vibration is raised. Choming Essences eventually eliminate the spores of all parasites, worms and viruses so that future infestations will not occur.

A Choming Essence Program identifies the Choming Essence combinations you need and these are changed every 5-6 weeks. Each bottle of essence is made by hand individually to ensure the strength of the vibration is the correct vibration for you. This continues the process of raising the individuals' vibration and eliminating the parasites and spores. This includes the elimination of spores and the cleansing of toxins. This will also eliminate candida and other fungus issues, along with the parasites. The average person is usually amazed at their increase in energy, even after 10 weeks on a Choming Essence Program.

How to Identify if you Have Parasites, Worms and Viruses - A Vibrational Assessment

The first step in working to eliminate parasites, worms and viruses is to have a Vibrational Assessment. A Vibrational Assessment is a report that you receive providing you with a great deal of information regarding the reading of the vibrations within you and around you.

To conduct a Vibrational Assessment, I need your full name, including middle names, your date of birth and your home address. I use this information to find your energy and to do the readings. I have conducted Vibrational Assessments for over 20 years for individuals in the US, Asia, Africa, all around the world. I am deeply intuitive, I am also an experienced dowser.

For each reading I show you on a scale of 1-10 the degree of difficulty with 10 being most difficult.

You will get readings on the vibrations of viruses, parasites, worms, infectious bacteria, candida, mould, chemical and metal toxins, and major organs and systems. You will be given readings on the degree of vibration for vitamin and mineral deficiencies.

There is a major section on food sensitivities. The composition of our food today is very different from what was grown 20 years ago. People with chemical sensitivities have great difficulty digesting many foods that are grown around the world. If infected with viruses, parasites and worms, your body chemistry can change creating food sensitivities. This section will give you readings, on major grains, gluten, major dairy products, sugars, honey and maple syrup, fruits and berries, nuts, major vegetables, main types of meat, fish and shellfish, herbs, seeds, and caffeine.

Three small sections identify if you have negative energies affecting you and your home. They give general information on your auras and chakras.

There is a major section on your emotional states. Emotions can cause disease and healing. E.g. laughter creates healing, and creates disease. It's important for you to know which emotions are difficult for you and the degree of difficulty.

I also provide you with recommendations for the first 6 weeks of the elimination and cleansing program with Choming Essences and Tinctures.

Eliminating Parasites, Worms and Viruses with Choming Essences and Tinctures

Choming Essences are made from nature, flowers, trees, gems, crystals, and elements of the sea. A Choming Essence is the pure vibration of that plant, flower, tree gem or crystal which is bottled with the vibration locked in with a bit of alcohol. Essences from flowers and trees have been used for healing human illness for centuries in India and other ancient cultures.

In the 1930`s Dr. Bach made 38 essences called Bach Essences which have become very well known around the world. Dr. Bach went to great effort to choose flowers and trees that has no physical effect in healing, but which had real effects on emotions. Choming Essences are made quite differently from Bach Essences and have a direct physical effect.

Choming Essences affect the physical, emotional, mental/intellectual and spiritual elements within an individual. Their effects range from the elimination of parasites, to a deep cellular detoxification of poisons, to helping individuals shift into their deeper subconscious for enhanced spiritual growth, to strengthening the mental/intellectual abilities, and helping people to shift and release emotions.

Choming Tinctures are made energetically to work with Choming Essences. They are made from organically grown trees, herbs, and other plants.

Maintenance

I recommend that everyone complete a detoxification with Choming every year. Our water and food today are full of chemicals, metals and other contaminants, that a regular detoxification is required to maintain a high level of energy.

Your ability to concentrate, to focus, and to increase their strength and endurance will be greatly enhanced. Choming Essences are for those who feel healthy, and to help you stay healthy.

For more information on eliminating your viruses, parasites and worms with Choming Essences please contact Mary Buchowski-Kurus, the owner of Choming Essences at mary@mkprojects.com and read many other articles on her website at www.mkprojects.com.
